

## **KRILL OIL** *Special Price \$16.95*

60 soft gels / 500mg

**K**rill Oil comes from Krill, a small shrimp like crustacean that inhabits the cold ocean areas of the world, primarily the Antarctic and North Pacific Oceans.

Krill Oil, like fish oil contains both of the Omega-3 fats, EPA & DHA... but hooked together in a different form. In fish oil, Omega-3 fatty acids are found in the triglyceride form, whereas in Krill Oil they are hooked up in a double chain phospholipid structure. The fats in our own cell walls are in the phospholipid form.

Besides its numerous vitamin and antioxidant potency - when compared to fish oil in terms of **ORAC** (Oxygen Radical Absorbance Capacity). **KRILL OIL WAS FOUND TO BE 48 TIMES MORE POTENT THAN FISH OIL!!!!**

**A number of studies have shown Krill Oil is tremendously effective in reducing LDL (bad) cholesterol and raising HDL (good) cholesterol.**

**(Up to 44% in some cases!!!! )**

Several studies have also shown Krill Oil to be beneficial in

- **lowering blood sugar**
- **effectively treating pain and inflammation for arthritis aches and pains**
- **aids with reducing the symptoms of PMS**
- **and effective in the treatment of adult ADHD**

In all of these studies Krill Oil was tested against Omega-3 Fish Oil. Free of contaminants the purity of the product is a huge plus. And, because of Krill's enormous anti-oxidant properties it is one of the few oils that has an extended shelf life and doesn't leave you with a fishy after taste.... This is a product that should be added to everyone's daily regime.

Also Now Available...for adults
